

## Visit to old age home

**Objectives** – The main objective of this visit was to sensitise students to the difficulties and problems of homeless aged people and to become aware of the joy of serving and being with the elderly . Another objective was to provide them companionship and emotional support . Visiting an old age home gives us the opportunity to spend our time with elderly people through which we get to learn lots of different things which never came in our mind .

**Context** - Changing family values system, economic compulsion of the children, neglect and abuse has caused older people to fall through the net of family care. Old homes are ideal for elderly people who are alone, face health problem, depression and loneliness . To get into the core by visiting old age homes is important, firstly we need to understand why the number of old age homes are increased day by day . All We agree that we are unable to invest enough time due to our busy schedule and work routine. We should visit old age home or elder Care Centres because it help us to understand the value of time and how time will change all of us , also the quality time we spend with the elderly will not only make them happy but it will also help to learn many things about life.

### Computer Training

**Objective** – Through this Computer training we ensure that set objectives are understood and communicated to learners throughout training to enhance learning and and shows continuous measurement and evaluation of training initiatives . We strive to provide continual constructive feedback to learners during training and ensures that all training will be outcome based . We provided certificate at the end of the training session .

**Context-** We conducted a skill program. This program primarily focused on upskilling the unskilled students . This training trained the participants basic skills in computer uses often required in today's life and social exchange . Learning outcomes for this training state the desired aim such as improved confidence in technology use and increased awareness of opportunities offered to individual with computer application skills .
