

**PROCEDURES AND POLICIES FOR MAINTAINING AND UTILIZING PHYSICAL ACADEMIC AND SUPPORT FACILITIES – Laboratory, sports complex, computers , classrooms etc..**

Infrastructure of the college is well maintained to draw maximum benefit out of them. IQAC and other committees ensure that only needed infrastructure is added on and at every level care is taken to check on purchase of equipment for the institution our institution has well developed psychology laboratory consisting more than 200 test including performance test and paper pencil test faculty and research scholar utilize the laboratory and can issue the tools available with the permission of laboratory in charge. Computer lab of our institution is also well equipped with internet connectivity and the classrooms of institution are equipped adequately and well furnished with technology supplemented through LCD. Seminar workshop and community related programmes are conducted in the seminar hall. Maintenance pertaining to infrastructure such as building, classroom, furniture, and fixtures electrical fittings, plumbing are recorded. The college has two Gardner to look after the upkeep of the college premises. The college shares the sports equipment's with the sister concern. Students of the college are sensitized to maintain discipline and cleanliness of the campus in a responsible manner. Principal formulates a committee for stock verification for all classroom, all laboratory and library and office at the end of the year to verify the stock position and to monitor the maintenance.
